

Snow Removal Equipment Procurement

Stuart Mathews General Manager, Aviation
Maintenance

Luisa Bangs, Senior Manager, Aviation
Maintenance

Snow Fleet circa 1991

Operations on 2 runways and serving approximately 16 million annual passengers

Current team operation on west side surfaces

Requires 8 pieces of snow removal equipment – 4 plows and 4 brooms

Future state team operation on west side surfaces

Requires 4 pieces of snow removal equipment – 4 plow/broom combination units

Side by side comparison – old vs. new

The newer equipment allows safer and more efficient operation on the runways and taxiways

Ramp side snow removal team in action

Great demand placed on a small team. Expanding the team will improve customer service.
