

# Open House Comment Form

Please provide your comments on the Sustainable Airport Master Plan.

These Port of Seattle <sup>gatherings</sup> are full of poster boards, fast talkers and plans to make the lives of the residents of Burien, Normandy Park, P5 Morris and Sea Tac miserable and unhealthy. We were promised no more expansion after the 1/2 Third Runway. And before that we were promised no Third Runway.

Now we are hearing you trying to pump and push still another expansion.

We were also promised a 2nd Site for <sup>an</sup> another airport to relieve the stress off of this small constrained site. That was closed down at the P5 RC level + State level because they didn't see a need for Sea Tac to expand around 2008.

And now ~~we~~ <sup>you</sup> are <sup>expanding</sup> and you need to expand. Shame on you - you honor no agreements. →

If you would like to receive SAMP email updates, please provide your email address.

- This is a Public Information request of the Port of Seattle. Please provide all of the communications and written reports (to include written, electronic and texted ones) on the studies, meetings (to include written notes, maps, graphs and final reports) on the Ind site study done by the State of Washington and the final report generated for <sup>by</sup> the PSRC and the State and governor <sup>takeoff + landing</sup>.

- The community agreement regarding noise was to follow the 4 Post Plan. That plan has clearly been junked. I can tell because of the increased noise, emission odors and vibrations in the area of my home + neighborhood.

- Please provide me with a copy of the reports and notices to the greater Buier community about closing down the 4 Post Plan and what new plan would be put in place + how citizens would be involved in providing data + input about the impact to them.

- Lastly noise from engine run ups has greatly increased in my neighborhood. Please provide the schedules for engines run ups ~~from~~ Jan 1, 2016 to Jan 1, 2017.

Respectfully, C. Edger

**Subject:** Public Information Request Port of Seattle (Request 16-183)

Ms. Edgar:

On May 27, 2016 we received your public information request. We have interpreted you are asking for the following:

*All communication and written reports, studies, meetings, notes, maps, graphs, texts and final reports on 2nd site study and the final report generated for/by the PRSC and the state of Governor.*

*Community Agreement regarding take-off and landing noise to follow the 4 Post Plan.*

*Copy of the reports and notices to the greater Burien community about closing down the 4 Post Plan and what new plans would be put in place and how citizens would be involved.*

*Schedules for engine run-ups January 1, 2016 to January 1, 2017.*

We have created a request for you within our online request portal via a separate email notification.

The link for your request <https://portofseattle.nextrequest.com/requests/16-183> will direct you to a file containing the following documents:

- 4 Post plan from FAA
- 4 Post plan to be implemented by FAA
- Engine Run-ups from Jan 1 2015 – May 15 – 2016 (We are interpreting you meant 2015 and 2016 not 2017 – if this is not correct, please let us know).

If you have any issues accessing the file or its contents, please let us know and we can mail you the documents on a CD.

As it pertains to the 2nd site study, please clarify if you are referring to the 2nd Airport. In addition, if we have misinterpreted any other parts of your request, please clarify. If there are specific time periods you seek, please clarify.

Based on our interpretation, we are continuing to search for and gather potentially responsive records. You can expect the next production on or before July 1, 2016.

Thank you,

**Jerome Wilen**
