

2016 Raisbeck Aviation High School Environmental Challenge

Seattle – Tacoma
International Airport

Environmental Challenge

- Airports & the Environment Curriculum developed for Highline School District's Raisbeck Aviation High School
- Project-based learning and educational program to foster knowledge of aviation and environmental careers
- Students solve a "true-to-life" environmental challenge at Sea-Tac Airport
- Solutions are judged by aviation and environmental professionals and local community leaders
- Winners receive a customized day at the airport and a commemorative plaque

Program Supports Century Agenda and Airport Environmental Goals
