Sea-Tac Taxi Corporation

My name is Chester Baldwin and with my partner Mark Gjurasic we represent the SeaTac Taxi Corporation (STC). We are the 218 Independent Taxi Cab Owner/Operators who operate their own vehicles and are dispatched through the Puget Sound Dispatch at SeaTac International Airport under the current ground transportation contract. We provided exceptional service to almost a million on-demand passengers at SeaTac last year alone.

SeaTac has long been considered one of the best airport taxicab services in the country, primarily because of the closely controlled system providing friendly efficient service to passengers while allowing taxicab drivers to make a reasonable living. It is vital to our industry to maintain and strengthen a cooperative relationship with both the dispatch company and especially directly with the Port Commissioners and Staff. We have several issues that we would like to work with the Port to address:

- 1) We believe that the current concession contract with Puget Sound Dispatch needs to be continued for several months to coincide with the conclusion of the Uber pilot program so that all parties can better understand the disruptive and potentially devastating consequences caused by allowing Uber to operate at the airport without requiring that they comply with the same regulations and restrictions that taxi cabs must comply with.
- 2) According to last year's Leigh-Fisher report on Sea-Tac outbound on-demand services, adding more vehicles at Sea-Tac makes it burdensome for any single vehicle operator to make a reliable income and this leads to a dilapidated fleet as owners are no longer able to afford the maintenance. As we have seen from history in our industry, removing reliability of income removes reliability of service.
- 3) The Port was promised a level playing field when Uber was introduced but STC members are paying 13% of gross passenger revenue as a fee to the Port of Seattle; while, Uber, Lyft, and others pay substantially less. This is unfair and contributes to inequity.
- 4) We have analyzed the trip data for taxi cab services in January – March 2016 (included) and we have some questions that we'd like to be able to work with staff to better understand.

We thank you for your consideration on behalf of STC, the 218 Taxi Cab Owner/Operators at SeaTac Airport and we look forward to partnering with the Port for many years to come.

You can reach the representatives for the SeaTac Taxi Corporation (STC) at:
