Re: Representation of taxicab operators at Sea-Tac

We operate taxicabs at Sea-Tac International Airport. We have Chester Baldwin and Marc Gjurassic of Public Affairs Associates, and Chris Van Dyk of Bainbridge Media Group, working and advocating for us. No one else speaks for us.

After an open, transparent bidding process, on the award of RFP 2016 - ADB - 1 for outbound ground transportation at Sea-Tac, the Port of Seattle made a decision. The winners have won. **We respect the Port's decision.**

Please do not let individuals and organization who pretend to speak for us, delay the implementation of that award and the execution of a contract. The people who protest the Port's decision are not our representatives. They do not speak for us. Our representatives have met with the contract winners, they have expressed our concerns with them directly, and have done so effectively. The contract winners have listened to us, and our concerns are being addressed. Now, we want only to get on with our businesses, and our lives. **And when these representatives speak for us, with no agenda other than our own, you can trust that those who say they speak for us, speak truthfully.**

Anyone else who says they speak for us, steals our voice.
