

**The Future of Airport Transportation Roundtable
November 22, 2016 - 10 am to 11:30 am
Sea-Tac Airport Central Auditorium**

Emerging Issues and Overview

How are 66 million passengers and employees going to get to Sea-Tac Airport?

In just six years passenger totals at Sea-Tac have increased by nearly 15 million – reaching a total of 45 million in 2016. This growth pushes Sea-Tac into the top 10 list U.S. Airports by total passengers for 2016. As a major employment center and foundation for regional economic growth, the airport needs a concerted effort to deliver quality transportation options to the airport.

Port of Seattle Staff will lay the ground work for where we are in terms of mode split and changes in behavior over the last six years. We have invited top officials, private sector and non-profit thinkers to join us to prognosticate and to discuss and outline a regional path forward for planning and implementing solutions to our airport congestion issues.

Panelists

Moderator: Lance Lyttle, Managing Director, Aviation

Participants:

- Claudia Balducci, King County Councilmember & Sound Transit Board member
- Rob Gannon, King County Metro Transit General Manager
- Peter Rogoff, Sound Transit CEO
- Craig Stone, WSDOT Gateway Program Administrator

- Vlad Gutman, Washington Director, Climate Solutions
- Steve Banfield, President and CEO Reach now

Agenda

- **Opening Statements - 15 minutes**
 - Welcome Lance Lyttle – 4 min
 - Introduce Panel
 - What is happening at airport and region on planning for airport transportation – what the airport needs from the regional players
 - Commissioners – 8 min
 - Claudia Balducci, KC Councilmember/ST Board member on ST3, Sound Transit and King County perspectives – 3 min
- **Current Mode Split and Traffic Modeling 15 min**
 - Elizabeth Leavitt
 - Current mode split- 8 min
 - SAMP transportation/what falls within the scope of SAMP - 2 min
 - Bryan Mistele
 - Modeling on point of origin to airport (catchment area) – 5 min
- **Questions for discussion 58 minutes**
- **Action Items - 2 minutes**
 - Summary by Lance Lyttle: Support & enhance Regional Mobility to Airport group through political support & resources.
 - Final Comments by Commissioners and Balducci

Key Questions

- 1) How does your agency/business support the region’s air travelers, visitors and employees in a sustainable and equitable manner? And in the future? What gaps do you see in the service your agency will provide?
- 2) What opportunities are available with technology innovations or other changes? What may cause disruptions, volatility, uncertainty, complexity or ambiguity? What risks come with accommodating 66 million passengers?
- 3) How might we work together to fill the gaps we foresee? Who must we enlist to assist?
