

Quiet Skies Puget Sound Presents

A COMMUNITY FORUM

Fight the Flight 101:

Everything you ever wanted to know about why those jets are flying new low routes over our City.

And why no one told you about it. And how noisy it will become. And how many more are coming. And the danger to our health and the environment. And why cities are suing the FAA. And why it matters for your property values. And who the heroes and villains are shaping up to be.

And what our City is doing.
