

Employee Services Center

March 28, 2019

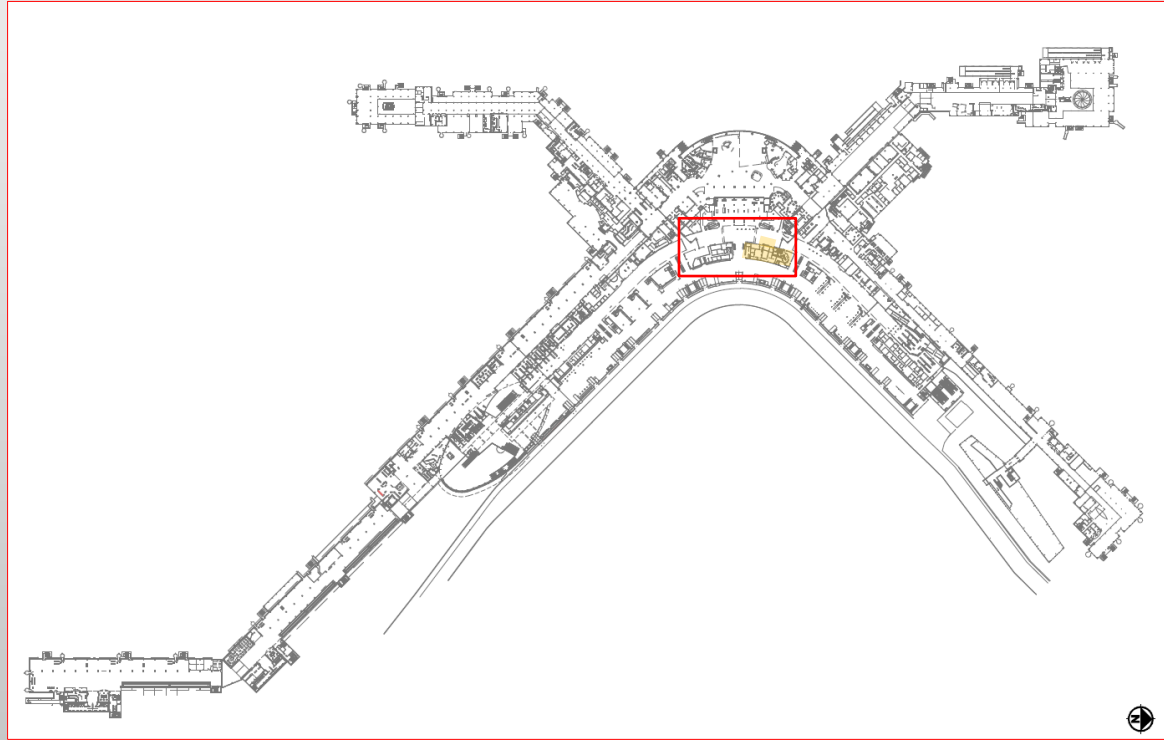

Project Scope

This project will build a new Employee Services Center, creating a “one-stop shop” for the badging and on-boarding of airport employees which will include:

- Credentialing
- Training
- Employee Parking
- Key (Access) Pick-Up
- New Company On-Boarding

The consolidation of these functions to one office will streamline employee on-boarding

Employee Services Center Location

Main Terminal mezzanine level

Employee Services Center Location

Mezzanine Level above Checkpoint 3

Conceptual Rendering

The Service Center is being designed with attention to the “flow” of employees and customers

Conceptual Rendering

New waiting area will improve the customer experience

WELL Pilot Project

- WELL is a performance-based system for measuring, certifying, and monitoring features of the built environment that affect human health and well-being.
- Key Opportunities:
 - Circadian lighting
 - Acoustic performance
 - Performance testing- ventilation, water quality, and thermal comfort

This project will be the first to pursue WELL certification at the Airport
