

COMMISSIONERS
PORT OF SEATTLE
P.O. BOX 1209
SEATTLE WA 98111

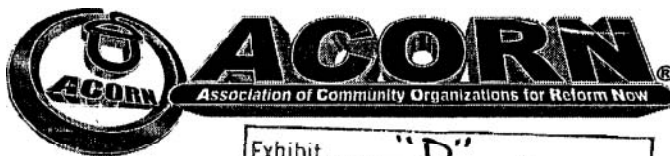

Exhibit	"D"
Port Commission	Regular
Meeting of	Nov. 11, 2008

RE: NW PORTS CLEAN AIR STRATEGY
Bear Port of Seattle Commissioners and Officials:

As a resident of the area your "NW Ports Clean Air Strategy" is supposed to cover, I am concerned about the dangerous working and breathing conditions caused by 1,500 to 1,800 diesel trucks moving containers through *our neighborhood* and from the loading docks every day.

STOP SMOG & NOISE POLLUTION: Diesel particulates from the trucks are dangerous to **human** health and clean water throughout South Seattle. Our homes and their contents rattle visibly and audibly, scaring our children.
The **Port** should solve this problem **BECAUSE:**

SAVE SEA TAC PARK

GOOD JOBS: Port truck drivers **can't afford** cleaner trucks, and **don't** have the money to **meet safety standards**. They **don't** have **the** resources **needed** to properly maintain **their trucks let alone** provide for a **family**. The trucking companies, not drivers or taxpayers, should be held accountable for these problems. We care about and support these drivers and would like an employee model **where** they can make a living wage!
The Port **should** solve this problem **BECAUSE:**

PREVENT TRAFFIC AND ROAD DAMAGE: The streets are deteriorating from loads they weren't designed to carry - knocking down tree limbs, spilling oil, **and** causing potholes. **When** they park on our streets these trucks block intersections and cause **dangerous conditions**. The Port should solve this **problem BECAUSE:**

Sincerely, NAME Felician, Francisco

COMISIONADOS DEL
PUERTO DE SEATTLE
P.O. Box 1209
Seattle, WA 98111

ASUNTO: CRISIS DE CAMIONEROS DEL PUERTO EN KING COUNTY.

Estimados Camioneros del Puerto de Seattle:

Como residente del área general del Rio Duwamish, estoy preocupado sobre 1,500 – 1,800 camiones de diesel que transportan contenedores desde y hacia los muelles de embarque y pasando por nuestro vecindario.

SMOG Y CONTAMINACION: Las partículas de Diesel que salen de los camiones afectan mi salud y la de mi familia causando enfermedades como asma e incrementa el riesgo de contraer cáncer. Además, estas partículas atraen y se saturan con otros agentes contaminando nuestros canales acuáticos afectando al Salmón y otras vidas marinas. EL PUERTO DEBE DE RESOLVER ESTE PROBLEMA PORQUE:

Por que afectan la salud de mis hijos
ademas estan contaminando el medio
ambiente

RUIDO Y TRAFICO: Debido a horarios arbitrarios y las rutas de los camiones, estos camiones aumentan el smog, el ruido producido por sus motores en marcha lenta, el tráfico en el área y ensucia nuestros vecindarios como South Park y Georgetown. EL PUERTO DEBE DE RESOLVER ESTE PROBLEMA PORQUE:

Por ~~que~~ nuestro bien
y el de nuestra Familia

Sinceramente,

NOMBRE Teresa Garcia Ruiz

COMMISSIONERS
PORT OF SEATTLE
P.O. BOX 1209
SEATTLE WA 98111

RE: NW PORTS CLEAN AIR STRATEGY
Dear Port of Seattle Commissioners and Officials:

As a resident of the area your "NW Ports Clean Air Strategy" is supposed to cover, I am concerned about the dangerous working and breathing conditions caused by 1,500 to 1,800 diesel trucks moving containers through *our neighborhoods* to and from the loading docks every day.

STOP SMOG & NOISE POLLUTION: Diesel particulates from the trucks are dangerous to human health and clean water throughout South Seattle. Our homes and their contents rattle visibly and audibly, scaring our children.

The Port should solve this problem **BECAUSE:**

Safe North sea-lee park.

GOOD JOBS: Port truck **drivers can't afford** cleaner trucks, and **don't** have the money to meet safety standards. They don't have the resources needed to properly maintain their trucks let alone provide for a family. The **trucking** companies, not drivers or **taxpayers**, should be held accountable for these problems. We care about and support **these drivers** and would like an employee model where they can make a living wage!

The Port should solve this problem **BECAUSE:**

PREVENT TRAFFIC AND ROAD DAMAGE: The streets are deteriorating from loads they **weren't** designed to carry - knocking down tree limbs, spilling oil, and causing **potholes**. **When** they park on our streets these trucks block intersections and cause **dangerous** conditions. The Port should solve this problem **BECAUSE:**

Sincerely, NAME Wahid

RE: NW PORTS CLEAN AIR STRATEGY
Dear Port of Seattle Commissioners and Officials:

As a resident of the area your "NW Ports Clean Air Strategy" is supposed to cover, I am concerned about the dangerous working and breathing conditions caused by 1,500 to 1,800 diesel trucks moving containers through *our neighborhood* to and from the loading docks every day.

STOP SMOG & NOISE POLLUTION: Diesel particulates from the trucks are dangerous to human health and clean water throughout South Seattle, Our homes and their contents rattle visibly and audibly, scaring our children,
The Port should solve this problem **BECAUSE:**

Our lives are more important and we should
help people be healthy

GOOD JOBS: Port **truck** drivers **can't afford cleaner** trucks, and don't have the money to meet safety standards, They don't have the resources needed to properly maintain their **trucks** let alone provide for a family. The trucking companies, not drivers or **taxpayers**, should be held accountable for these problems. We care about and support **these drivers** and would like an employee model where they can make a living wage!
The **Port** should solve this problem **BECAUSE:**

People who drive trucks bring us food
and we need them

PREVENT TRAFFIC AND ROAD DAMAGE: The streets are deteriorating from loads they **weren't** designed to carry - knocking down tree **limbs**, spilling oil, and causing potholes, When they park on our streets these trucks block intersections and cause **dangerous** conditions. The Port should solve this problem **BECAUSE:**

We need to have parks for children
because they need to be active
