Seattle, WA 98111

RE: PORT TRUCKING CRISIS IN KING COUNTY

Exhibit "F"
Port Commission Special
Meeting of Feb. 10, 2009

Dear Port of Seattle Commissioners:

As a resident of the Greater Duwamish area, I am concerned about the 1,500 – 1,800 diesel trucks moving containers to and from the loading docks through our neighborhoods.

SMOG AND POLLUTION: Diesel particulates from the trucks contribute to human health concerns such as asthma and cancer risks. In addition, fine particulates attract and hold toxic pollutants and ultimately run off into our waterways and impact salmon and other marine life. **THE PORT SHOULD SOLVE THIS PROBLEM BECAUSE:**

SAVE NORTH SEATAC PARK

NOISE AND TRAFFIC: Due to the haphazard loading schedules and trucking routes, these port trucks contribute to smog, idling noise, and unsafe traffic and health conditions in local neighborhoods such as Delridge, Georgetown and South Park. **THE PORT SHOULD SOLVE THIS PROBLEM BECAUSE:**

Sincerely,

NAME LAURA LOPEZ-WILSON
ADDRESS 22921 30TH AVE SD

RE: NW PORTS CLEAN AIR STRATEGY
Dear Port of Seattle Commissioners and Officials:

As a resident of the area your "NW Ports Clean Air Strategy" is supposed to cover, I am concerned about the dangerous working and breathing conditions caused by 1,500 to 1,800 diesel trucks moving containers through *our neighborhood* and from the loading docks every day.

STOP SMOG & NOISE POLLUTION: Diesel particulates from the trucks are dangerous to human health and clean water throughout South Seattle, Our homes and their contents rattle visibly and audibly, scaring our children,
The Port should solve this problem **BECAUSE:**

GOOD JOBS: Port truck drivers can't **afford** cleaner trucks, and don't have the money to meet safety standards, They don't have the resources needed to properly maintain their **trucks** let alone provide for a family. The trucking companies, not drivers or **taxpayers**, should be held accountable for these problems. We care about and support **these drivers** and would **like an** employee model where they can make a living wage!
The Port should solve this problem **BECAUSE:**

PREVENT TRAFFIC AND ROAD DAMAGE: The streets are deteriorating **from** loads they **weren't** designed to carry - knocking down tree limbs, spilling oil, and causing **potholes**. When they park on our streets these trucks block intersections and cause **dangerous** conditions. The Port should solve this problem **BECAUSE:**

Sincerely, NAME Yassin Jelle

COMISIONADOS DEL
PUERTO DE SEATTLE
P.O. Box 1209
Seattle, WA 98111

ASUNTO: CRISIS DE CAMIONEROS DEL PUERTO EN KING COUNTY.

Estimados Camioneros del Puerto de Seattle:

Como residente del área general del Rio Duwamish, estoy preocupado sobre 1,500 – 1,800 camiones de diesel que transportan contenedores desde y hacia los muelles de embarque y pasando por nuestro vecindario.

SMOG Y CONTAMINACIÓN: Las partículas de Diesel que salen de los camiones afectan mi salud y la de mi familia causando enfermedades como asma e incrementa el riesgo de contraer cáncer. Además, estas partículas atraen y se saturan con otros agentes contaminando nuestros canales acuáticos afectando al Salmón y otras vidas marinas. EL PUERTO DEBE DE RESOLVER ESTE PROBLEMA PORQUE:

RUIDO Y TRAFICO: Debido a horarios arbitrarios y las rutas de los camiones, estos camiones aumentan el smog, el ruido producido por sus motores en marcha lenta, el tráfico en el área y ensucia nuestros vecindarios como South Park y Georgetown. EL PUERTO DEBE DE RESOLVER ESTE PROBLEMA PORQUE:

Sinceramente,

COMISIONADOS DEL
PUERTO DE SEATTLE
P.O. Box 1209
Seattle, WA 98111

ASUNTO: CRISIS DE CAMIONEROS DEL PUERTO EN KING COUNTY.

Estimados Camioneros del Puerto de Seattle:

Como residente del área general del Rio Duwamish, estoy preocupado sobre 1,500 – 1,800 camiones de diesel que transportan contenedores desde y hacia los muelles de embarque y pasando por nuestro vecindario.

SMOG Y CONTAMINACION: Las partículas de Diesel que salen de los camiones afectan mi salud y la de mi familia causando enfermedades como asma e incrementa el riesgo de contraer cáncer. Además, estas partículas atraen y se saturan con otros agentes contaminando nuestros canales acuáticos afectando al Salmón y otras vidas marinas. EL PUERTO DEBE DE RESOLVER ESTE PROBLEMA PORQUE:

RUIDO Y TRAFICO: Debido a horarios arbitrarios y las rutas de los camiones, estos camiones aumentan el smog, el ruido producido por sus motores en marcha lenta, el tráfico en el área y ensucia nuestros vecindarios como South Park y Georgetown. EL PUERTO DEBE DE RESOLVER ESTE PROBLEMA PORQUE:

Sinceramente,

NOMBRE Laura DIAZ ALVARADO

RE: PORT TRUCKING CRISIS IN KING COUNTY

Dear Port of Seattle Commissioners:

As a resident of the Greater Duwamish area, I am concerned about the 1,500 – 1,800 diesel trucks moving containers to and from the loading docks through our neighborhoods.

SMOG AND POLLUTION: Diesel particulates from the trucks contribute to human health concerns such as asthma and cancer risks. In addition, fine particulates attract and hold toxic pollutants and ultimately run off into our waterways and impact salmon and other marine life. **THE PORT SHOULD SOLVE THIS PROBLEM BECAUSE:**

We have enough problems without
More trouble.

NOISE AND TRAFFIC: Due to the haphazard loading schedules and trucking routes, these port trucks contribute to smog, idling noise, and unsafe traffic and health conditions in local neighborhoods such as Delridge, Georgetown and South Park. **THE PORT SHOULD SOLVE THIS PROBLEM BECAUSE:**

Sincerely,

NAME

Larry Japetchy

RE: NW PORTS CLEAN AIR STRATEGY
Dear Port of Seattle Commissioners and Officials:

As a resident of the area your "NW Ports Clean Air Strategy" is supposed to cover, I am concerned about the dangerous working and breathing conditions caused by 1,500 to 1,800 diesel trucks moving containers through *our neighborhood* and from the loading docks every day.

STOP SMOG & NOISE POLLUTION: Diesel particulates from the trucks are dangerous to human health and clean water throughout South Seattle. Our homes and their contents rattle visibly and audibly, scaring our children.
The Port should solve this problem **BECAUSE**

GOOD JOBS: Port truck **drivers** can't afford cleaner trucks, and don't have the money to meet safety standards. They don't have the resources needed to properly maintain their trucks let alone provide for a family. The **trucking** companies, not drivers or **taxpayers**, should be held accountable for these problems. We care about and support **these drivers** and would like an employee model where they can make a living wage!
The Port should solve this problem **BECAUSE**

PREVENT TRAFFIC AND ROAD DAMAGE: The streets are deteriorating from loads they weren't designed to **carry** - knocking down **tree** limbs, spilling oil, and causing **potholes**. When they park on our streets these trucks block intersections and cause **dangerous** conditions. The Port should solve this problem **BECAUSE**

Sincerely, NAME Bazgacarp94 A09

COMISIONADOS DEL
PUERTO DE SEATTLE
P.O. Box 1209
Seattle, WA 98111

ASUNTO: CRISIS DE CAMIONEROS DEL PUERTO EN KING COUNTY.

Estimados Camioneros del Puerto de Seattle:

Como residente del área general del Rio Duwamish, estoy preocupado sobre 1,500 – 1,800 camiones de diesel que transportan contenedores desde y hacia los muelles de embarque y pasando por nuestro vecindario.

SMOG Y CONTAMINACION: Las partículas de Diesel que salen de los camiones afectan mi salud y la de mi familia causando enfermedades como asma e incrementa el riesgo de contraer **cáncer**. Además, estas partículas atraen y se saturan con otros agentes contaminando nuestros canales acuáticos afectando al Salmón y otras vidas marinas. **EL PUERTO DEBE DE RESOLVER ESTE PROBLEMA PORQUE:**

RUIDO Y TRAFICO: Debido a horarios arbitrarios y las rutas de los camiones, estos camiones aumentan el smog, el ruido producido por sus motores en marcha lenta, el tráfico en el área y ensucia nuestros vecindarios como South Park y Georgetown. **EL PUERTO DEBE DE RESOLVER ESTE PROBLEMA PORQUE:**

Sinceramente,

NOMBRE Rosario Santiago H.
DIRECCIÓN 14224 37th. Av.S. 104
