

PORT OF SEATTLE
MEMORANDUM

COMMISSION AGENDA

Item No. 6d

Date of Meeting May 4, 2010

DATE: April 28, 2010

TO: Tay Yoshitani, Chief Executive Officer

FROM: Michael Burke, Senior Manager, Container Leasing and Operations
Steve Queen, Manager, Container Operations

SUBJECT: Term Lease with PCC Logistics at Terminal 104.

Amount of This Request: \$145,387

Source of Funds: Operating Revenues

Est. Workers Employed: 90

ACTION REQUESTED:

Request for authorization for the Chief Executive Officer to execute a ten-year lease with PCC Logistics, a division of Pacific Coast Container, Inc. and provide funds for broker fees in the amount of \$145,387.

BACKGROUND:

In June of 2009, the prior tenant at Terminal 104 defaulted on its lease and was evicted. The property has been vacant since then.

Terminal 104 is an 8.5 acre site with a 36,840 square foot warehouse and 4,800 square feet of office space. It is located between Ash Grove Cement and Spokane Street adjacent to the Duwamish River.

The Seaport Division issued an RFP on November 11, 2009 to solicit bids for the approximately 8.5 acre site. Bids were due on December 11, 2009. PCC Logistics, represented by commercial real estate service group Neil Walter Company, was the lone bidder. The RFP was advertised via the Seattle Journal of Commerce, via direct mail to known entities, as well as the Port's eBid website. Port staff and PCC Logistics represented by their broker entered into negotiations.

PCC Logistics was formed in 1988 as an Oakland, CA based warehouse and logistics operator. They have operated in Seattle for over 15 years. They currently operate in sixteen locations in Washington, California, Nevada as well as China providing transloading, warehousing, trucking, USDA fumigation and third party logistics. PCC Logistics has been a long-term customer of the Port on Harbor Island.

FINANCIAL ANALYSIS:

Budget/Authorization Summary

Previous Authorizations	\$0
Current Request for Authorization	\$145,387
Total Authorizations, including this request	\$145,387
Remaining Budget to be Authorized	\$0

Project Cost Breakdown

Tenant Improvement Allowance	\$0
Leasing Broker Commission	\$145,387
Other	\$0
Total	\$145,387

Source of Funds

The broker lease commissions associated with this lease were not included in the 2010 Operating Budget. The funding required in the amount of \$145,387 will result in an unfavorable operating expense variance. Seaport Division will seek ways to offset this incremental operating expense with savings in other operating expenses.

Broker lease commissions will be funded from the general fund.

ECONOMIC IMPACTS AND BUSINESS PLAN OBJECTIVES:

Initially the rent looks very low for the first three years. It is. It reflects the quality of the building and its environs. This aging facility has not seen any upgrade in 30+ years. Ingress and egress of both truck and rail are hampered by the East Marginal Way Grade Separation project next door until September 2011. The warehouse and yard lack working lights. The roof currently leaks and the HVAC system is ten years past its useful life. The dock doors and levelers are in general disrepair and the yard needs paving. Given these deficiencies, the lessee will be required to make significant improvements and repairs to the premises. The Port will be making zero investment.

STRATEGIC OBJECTIVES:

Leasing Terminal 104 to PCC Logistics fully utilizes all characteristics of this property. The lessee will take full advantage of the existing rail connection, handling approximately ten rail cars per day. This transloading operation will result in an additional 72,000 TEUs of export containers annually. This activity will require hiring 90 new full-time jobs.

ENVIRONMENTAL SUSTAINABILITY AND COMMUNITY BENEFITS:

PCC Logistics will comply with all requirements of the City ordinance and Ecology regulations and permits, including the preparation of and compliance with state industrial general stormwater permits and/or the Phase I Municipal permits.

DOCUMENTS ASSOCIATED WITH THIS REQUEST:

Lease agreement.

ALTERNATIVES CONSIDERED/RECOMMENDED ACTION:

- Not execute lease agreement: Not executing the proposed lease would mean the 382,447 square feet of yard storage, and 41,280 square feet of warehouse space would remain vacant resulting in no new revenue opportunity to the Port. The Port could wait for a market turnaround and hope for higher initial lease rates. According to CoStar, a commercial real estate analysis company, the average time on market for Puget Sound industrial properties is 13.8 months.
- Execute Proposed Lease: The proposed lease agreement will allow the Port to maximize this unique asset while making no investments to an aged facility. ***This is the recommended action.***

PREVIOUS COMMISSION ACTION:

- None.
