

DRAFT**Port of Seattle Commission Delegation of Responsibility and Authority to the CEO****Preamble**

The Port of Seattle's mission is to create jobs by advancing trade and commerce, promoting industrial growth, and stimulating economic development. The Century Agenda, adopted by the Port Commission in late 2012, sets out strategies, objectives, and regional initiatives that guide the Port's efforts in pursuit of this mission.

The Port was established under Washington law as a public agency and engages in commercial enterprises that sustain a healthy economy. It is therefore endowed with both governmental and commercial powers. These dual capabilities require institutional frameworks that foster public accountability and empower direct conduct of commercial activity. The Commission is updating the current Master Delegation of Authority to pursue the Century Agenda.

The Port is committed to create economic opportunity for all, steward the environment responsibly, partner with surrounding communities, promote social responsibility, conduct itself transparently, and hold itself accountable.

All authority of the Port of Seattle is vested with the Commission in its actions as a public body. Through this new General Delegation, the Commission subsequently and hereby vests authority with the Chief Executive Officer ("CEO") and delineates Commission and CEO responsibilities. It sets expectations and lays the basis for the respective efforts of the Commission and CEO to be aligned, complementary, and effective.

Section I: Objectives of this General Delegation:

- A. Create Clarity and Alignment:** This General Delegation clearly delineates the responsibility and authority of the Commission and the CEO:
1. **The Commission** governs the Port, directs all inter-governmental policy functions, and oversees the CEO.
 2. **Together, the Commission and CEO** develop the Port's overall vision, strategies, objectives, Policy Directives, long-range plans, major programs and budgets.
 3. **The CEO** executes the long-range plans and major programs, oversees all enterprises and supporting functions, and advises the Commission.
- B. Provide Transparency and Accountability:** This General Delegation specifically calls for the development and adoption of Policy Directives to guide the Port's efforts in pursuit of its strategic objectives. Policy Directives:
1. Provide high-level guidance about *how the Port does its work* based on public values and applicable laws, rules and regulations.
 2. Inform operational policies regarding specific functions at the port and set appropriate limits.
 3. Deliver standards that support the effective use of the internal audit function to verify compliance.

- C. Pursue the Century Agenda:** This General Delegation emphasizes long-range plans as the means of pursuing the Century Agenda strategies and objectives. It utilizes the long-range plan approval and update processes to align the Commission and the CEO. Long-range plans identify *what work needs to be done* to pursue strategies and achieve objectives. These describe the 1) strategy and objective(s) being pursued; 2) work plan, resources, and timeline; 3) metrics that monitor progress; and 4) reporting frequency to the Commission. Long-range plans are developed around strategies and objectives, not operating divisions and budgeting periods.
- D. Empower for Concerted Action:** Clear responsibilities and authorities will enable the Commission and CEO to work in concert and be effective.

Section II. Delegation of Responsibility and Authority

A. Governing the Port of Seattle as its elected body, the Commission shall:
