Subject: Seaview Boatyard Expansion

Although unable to attend the 2:00pm review, I would like to express my support in expanding the boatyard. Only by expanding would Seaview be able to adequately meet the needs of the Washington boater. As a longtime customer of Seaview, we have seen their ability to meet the environmental standards firsthand. Additionally, Seaview is a source of employment for craftsmen and shipwrights. By offering these services, boaters visiting Seaview also are customers of the port and the local community, all of which is a generator of funds.

Please support the boaters of Puget Sound and approve the expansion of the yard to adequately meet their needs. This is one of the few boatyards with ease of access from the Sound.

Thank you for your consideration,

John Gerner
