

Joining K4C, the King County-Cities Climate Collaboration

March 27, 2018

Why K4C?

- Regional Partnership consistent with Port-wide Environmental goals
- Recommendation of the Port Commission's Energy and Sustainability Policy Committee

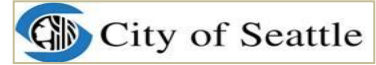

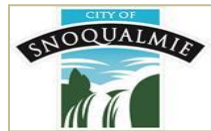

Port of Seattle Commission Meeting

March 27, 2018

*Rachel Brombaugh, Energy Policy &
Partnerships Specialist, King County*

K4C Highlights: Who we are

K4C: Benefits of Collaboration

- Identify goals and hold ourselves **accountable**
- **Share resources** – staff time and expertise, training, and funding
- Speak with a collective voice for **greater impact**
- Coordinate outreach and messaging to advocate for **solutions**
- Raise the profile of **local governments'** climate work
- **Engage** elected officials and other leadership **on action**

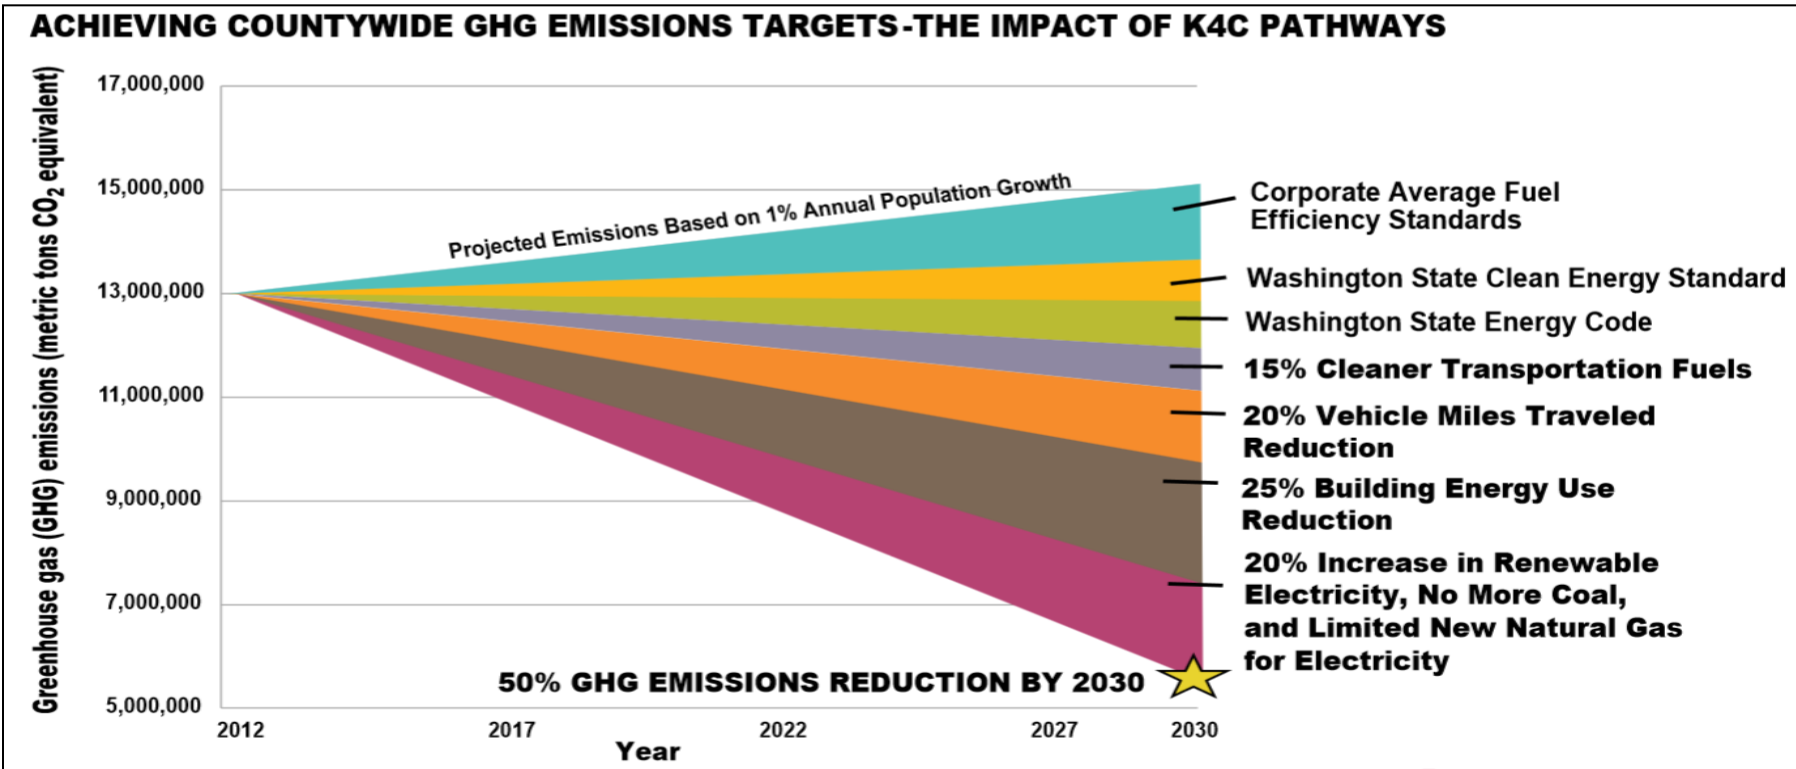

Five K4C Elected Official Summits since 2014

K4C Partner Staff in 2016

K4C Highlights: "Carbon Wedge" Analysis

Doing the math to know what it will take to achieve shared GHG reduction targets

Individual Interests and Actions – November Staff Retreat

Top Shared K4C Interests

- Greenhouse Gas Inventory
- Climate Action/Stewardship Plan
- Urban Tree Canopy
- Improving Facilities: efficiency and/or renewables
- Green Building Standards
- Strengthening Energy Codes
- EV Infrastructure/Green Fleets

K4C Workplan: 2018 Projects

- **Expanded GHG measurement and tracking**
- **Green Building Training**
- **Updating public-facing communications materials**
- **Sustainable Cities Roundtables**
- **Potentially:**
 - Energy efficiency challenge
 - Green leasing study
 - EV charging study

Thank you!
