

**COMMISSION
AGENDA MEMORANDUM**

Item No. 9a

BRIEFING ITEM

Date of Meeting September 25, 2018

DATE: September 19, 2018

TO: Port of Seattle Commission
Stephen P. Metruck, Executive Director

FROM: Lance Lyttle, Managing Director, Aviation Division
Clare Gallagher, Director Capital Project Delivery, Public Affairs

SUBJECT: Ground Transportation to the Airport

EXECUTIVE SUMMARY

The Port of Seattle is committed to providing quality customer service, reducing congestion, and minimizing environmental impacts of vehicles at Seattle-Tacoma International Airport (Sea-Tac). This includes implementing strategies and tactics to move people out of private vehicles and into higher-occupancy modes.

The purpose of this briefing is to review with Commissioners a proposed ground transportation framework for developing ground transportation programs at the airport. The briefing will also include a review of the Ground Transportation Access Plan (GTAP) and the recommended strategies and tactics from the study.

The framework consists of Guiding Principles, Goals, Strategies and Tactics. These elements have been drawn from the September Commissioner briefings, the July 10th Travel to and From the Airport Study Session, and the GTAP. The proposed guiding principles include: environmental effects, congestion relief, customer choice, economic opportunity/social equity and revenue generation. The goals include specific targets for emission reductions, travel time and mode shift.

The briefing on GTAP will review the study approach, as well as data from the study and the outcome identifying the top 10 ground transportation strategies and tactics. A timeline for anticipated Commission briefings and possible action on ground transportation items, beginning in Q4, will also be presented.
