

COMMISSION AGENDA MEMORANDUM

BRIEFING ITEM

Item No.

Date of Meeting Octo

October 23, 2018

7a

DATE: October 4, 2018

TO: Stephen P. Metruck, Executive Director

FROM: Dave McFadden, Managing Director, Economic Development Division

Ron Peck, Director, Tourism Development Department

SUBJECT: 2018 Tourism Marketing Support Program Summary

EXECUTIVE SUMMARY

The 2018 Tourism Marketing Support Program is in its third year. It has been a well received, collaborative, and mutually beneficial program for the Port of Seattle and destination marketing organizations alike. Part of the briefing will identify 2019 recommendations and strategies to improve the program based on lessons learned and experiences from this year and past years including continued strong outreach to cultural, historical, tribal, eco/sustainable and adventure/nature travel related organizations.

Tourism Marketing Support Recipients

The Port of Seattle is advancing tourism in Washington State by implementing an annual partnership program with local destination marketing organizations. In the first three years of the program 119 applications have been received and 57 projects awarded, netting approximately \$700,000 in additional marketing promotion efforts for Washington. The matching funds program promotes use of Port facilities, and tourism growth throughout the state.

In 2018, \$200,000 was authorized for the program. 45 applications were obtained. Staff reviewed the applications and recommended 26 to receive funding. The overall intent of the program is to provide matching funds support of up to \$10,000 each to local communities, destination marketing organizations, ports, chambers of commerce, and attractions to promote their destinations or activities. The funds must be used for advertising, publicizing, promoting or distributing information to attract visitors to the destination. The program requires a two to one match (for every POS dollar invested, the organization must contribute fifty cents).

The projects (and the results / benefits) are summarized in the following tourism categories:

 <u>Trade Shows / Sales Efforts:</u> – Travel trade shows and exhibitions in which travel businesses and destination marketing organizations work to obtain additional product sales by promoting to retailers, tour operators, travel writers and social media

influencers. Result / Benefit: Additional tour programs and visitor attraction sales in Seattle and the Pacific Northwest by non-residents.

- <u>Familiarization Tours:</u> Familiarization tours (FAMs) are specific events and activities where travel retailers, tour operators, cruise lines, airlines or travel media are invited to the destination to learn and experience first-hand what a destination or product has to uniquely offer potential travelers. Result / Benefit: Increase in published tour products and programs generating additional air travel and economic spend in Washington.
- <u>Event Attractions Promotion</u>: Marketing and advertising efforts to increase attendance or participation to an attraction, event or activity. Result / Benefit: Increases in visitation, arrivals and visitor expenditures as a result of additional marketing efforts to non-residents.
- <u>Digital Marketing</u>: Encompasses a number of online marketing efforts that include establishing a visitor focused travel website, targeted banner website or social media advertising, international language website translations, and online travel marketing research efforts. Result / Benefit: Generating additional awareness, interest and ultimately positively impacting travel to Washington.
- <u>Travel Articles / Public Relations</u> Specifically geared to generate additional awareness and interest in the destination by impacting travel, food and beverage writers and media influencers (bloggers and online travel website founders) to author stories about a destination. The efforts to influence the writers and influencers include one on one meetings, deskside visits, arranged appointments at travel trade shows, and travel FAMs. Result / Benefit: Increases in earned media value coverage, exposure and interest in traveling to Seattle and Washington State.

Statewide Participation in 2018

Projects and program are located throughout the state:

King County – 11

Eastern Washington – 6

Olympic Peninsula - 4

Western Washington – 5

TOTALS	\$200,000		

For 2019 tourism development is requesting \$200,000 for the program. Tourism development recognizes the value to tourism in our state of our history culture, lands, waters and the environment. Tourism has developed a data base of 40 tribal, 24 cultural and 17 outdoor recreation oriented organizations. We will work diligently to effectively communicate the program and its benefits to these entities with the express goal of increasing involvement.

The following strategies or actions are planned and requested with the objectives of continuing improving the process, ensure the program is available to a diverse group of tourism related organizations and allow for a more timely implementation of projects, thereby maximizing effectiveness of the programs. Specifically:

- Organizations that have been awarded funds for three years running will be placed on a
 two year respite. The rationale is to allow other tourism organizations an opportunity to
 participate and to reinforce that the funds should be perceived as seed or new project
 dollars and not considered as permanent funds to be obtained every year.
- Participating organizations have expressed their sincere appreciation and gratitude for the program. We have repeatedly heard that without this program they could not have initiated the marketing effort to increase out of state visitors and travel throughout Washington. The one constructive comment made repeatedly by a number of participants has been to consider allowing for the initiation of agreements sooner. Doing so will allow the projects to be implemented in a more timely fashion.
