

# Maritime Division COVID Response

March 24, 2020

# Operations Impacted by COVID

- Priorities:
  - Protecting public health and employee safety
  - Continuing to maintain our critical operations

# Cruise

- Dramatic global impacts
  - Operations paused in the US for 30 days, 60 days for Princess,
  - Halted in Canada until July 1.
  - Port of Seattle has already delayed Cruise Season by 2 weeks.
- Consultation with public health officials: cruise season delayed until the resolution of the public health emergency.
- We will regularly reevaluate this situation, in conjunction with public health officials and our cruise line partners.

# Fishing Impacts

- Fleets continue to fish: enhanced screening for crew
  - Large vessels returning from Pollock Fishery.
  - Salmon fleet preparing for Alaska season.
- Terminal Operations
  - Adjusted to accommodate social distancing: offices closed to the public.
  - Still providing all essential functions to get fleet on their way

# Recreational Marinas

- Implemented social distancing
  - Offices closed: still supporting customers remotely or with on site operations staff.
- Increased cleaning of restrooms.
- Local Yacht Clubs have paused racing.

# Marine Maintenance Team

- Maintenance:
  - Clean Team enhanced.
    - Increased restroom cleaning
  - Park operations aligned with City Parks
    - Restrooms remain open to serve vulnerable populations
    - Increased cleaning frequency
    - Messaging regarding social distancing
  - Essential work continuing

# Capital Program Evaluation

- Evaluating capital program for possible deferments:
  - Status of project and impact of delay
  - Business need: impacted by this crisis
- Balancing critical positive economic impact of our work
- Evaluating New Cruise Terminal Project in light of current crisis and impact on global cruise industry
  - Will return with recommendations regarding pausing or deferring the project

# Recommendations

- Cruise season delayed during public health emergency
- Continue provide Essential Operations with minimum staff
- Evaluate capital program
  
- Priorities:
  - Protecting public health and protecting employee safety
  - Continuing to maintain our critical operations
