samson seged

questions:

1- airport taxi base fare

2- pick up per trip fare reduction ( ( \$1000 - \$1200 per month is way too much)

3- after 11pm, most airport hotel shuttle services stop and taxi drivers are forced to take the trips to those hotels for free. Even sometimes drivers pay \$6 per trip to nearby hotels just to make \$5.25 for themselves for that trip. yes, all these are true and someone is ignoring these unfair work conditions in the airport.

4- well trained and good english speakers of ABM employees are needed, because they are very important for drivers income for their well communication with customers. therefore, would you please take your time and make an immediate changes to above requests?
