Subject: [EXTERNAL] Reduced Air Traffic CRITICAL to Climate Recovery
Date: Sunday, November 15, 2020 9:09:55 AM

WARNING: External email. Links or attachments may be unsafe.

Dear Port of Seattle Decision Makers,

I can't testify in person or virtually on Tuesday Nov 17. So: Please accept this written document to be submitted into the records (and hopefully read and listened to by the decision makers):

It is CRITICALLY important that we SIGNIFICANTLY REDUCE AIRLINE TRAFFIC at this time at SEATAC Int'l airport, and all airports worldwide, in the history of our planet. This is extremely important for our society to be able to have a Climate Recovery from our current Climate Crisis. Mother Earth MUST be saved, and the airline industry is contributing lethal amounts of CO2 into our atmosphere, significantly exacerbating our Climate Crisis..

Please REDUCE air traffic at all costs, to save Mother Earth and all her future inhabitants, from the worst effects of climate change.

Regards,

Rusty West, Climate Action Youth Monthly Zoom Activity Coordinator
