1	O RDER 2021-02 :
2	AN ORDER OF THE PORT OF SEATTLE COMMISSION
3	
4	To require the Executive Director to continue the indefinite
5	postponement of the expenditure of funds for the design or
6	construction of a cruise terminal on Terminal 46 until a
7	reassessment of the industry is delivered to Commission,
8	and other requirements before construction is authorized.
9	
10	Proposed
11	JANUARY 12, 2021
12	
13	INTRODUCTION
14	
15	Cruise operations at the Port of Seattle provide significant benefits to the local economy,
16	reaching industries far beyond the waterfront. Ships homeported in Seattle are provisioned by
17	local providers and strengthen our network of maritime and industrial businesses. With the onset
18	of the COVID-19 pandemic, cruise operations around the world came to a halt. Though there is
19	recent optimism with the lifting of the Center for Disease Control ban on cruises in U.S. waters,
20	the future is not certain.
21	
22	The implementation of stringent new safety measures and the upcoming delivery of multiple
23	COVID-19 vaccines provide a path forward. However, it is unclear when the industry will recover
24 25	and how customers will react to the resumption of cruise, and there is no certainty of a recovery
25	or return to a "normal" cruise season in 2021. It is expected the existing Port of Seattle cruise
26 27	terminals are sufficient to handle the anticipated recovery of cruise on our waterfront for the near future.
27	
28 29	The Port is committed to maintaining Terminal 46 to support maritime use. The Port of Seattle
30	Commission supports the Executive Director's initial postponement in mid-2020 of investment
31	on the new cruise terminal proposed on the 29 acres of Terminal 46 that are managed by the
32	Port of Seattle under an Interlocal Agreement with the Northwest Seaport Alliance. This Order
33	directs the Executive Director to continue the indefinite postponement of all design and capital
34	spending on a proposed new cruise terminal, unless otherwise directed by the Commission, and
35	to work with the Northwest Seaport Alliance to explore with maximum flexibility maritime uses
36	for Terminal 46.
37	
38	Text of the Order
39	
40	The Commission hereby directs the Executive Director to continue the indefinite postponement
41	of design and capital investment on a proposed new cruise terminal on the 29 acres of Terminal
42	46 that are managed by the Port of Seattle under an Interlocal Agreement with the Northwest
43	Seaport Alliance. The Executive Director shall also demonstrate clear coordination with the
44	Northwest Seaport Alliance to provide maximum flexibility on future uses for Terminal 46.
44	Northwest Seaport Alliance to provide maximum flexibility on future uses for Terminal 46.

45

Prior to Commission authorization of design of a new cruise terminal, staff shall provide the Commission with an updated assessment of the impact of the COVID-19 pandemic on the cruise industry and a reevaluation of the proposed project. Additionally, prior to Commission authorization of construction of a new cruise terminal, staff shall provide to Commission an assessment that includes, at a minimum, project cost estimates, return on investment and projected market demand.
