Here is my testimony (written only) for Tuesday's meeting. I kept it short so that you can read the whole thing. thank you!

Commissioners,

You have a target of a 50% reduction in Scope 3 greenhouse gas emissions by 2030. What are you planning to do to meet your goal? Remember that emissions from so called "sustainable" fuels contribute just as much to global warming as those from conventional fuels.

Sincerely,

Laura Gibbons
