Item No. <u>8b attach 1</u>
Meeting Date: <u>July 26, 2022</u>

Burien Veterinary Hospital 4628 Ambaum Blvd SW Seattle, WA 98166

Port of Seattle Police Dept. P.O. Box 68727 Seattle, WA 98168-0727 February 17, 2022

Dear Kennel Master,

Concerning canine "Merlin" microchip number 276094180090939, a male neutered yellow labrador retriever with Officer Jeralyn Berg.

Merlin's current issues of back pain from intervertebral disc disease and intermittent lameness is debilitating. His latest flair up is concerning and may need a MRI if medical management is not successful. He also suffers from severe atopic dermatitis, food allergies, and intermittent lameness. It is my recommendation to retire Merlin as soon as possible.

Sincerely,

Tram Le, DVM Medical Director

Burien Veterinary Hospital
