Item No.: _8f supp_____
Date of Meeting: 12/12/2023
Commission Presentation for
2024 Aviation Surface Water Monitoring
and Permit Support IDIQ Contract
December 12, 2023
Josh Feigin, Sr. Environmental Management
Specialist, AV Environmental Programs

Stormwater Program and Contract Overview

Seattle-Tacoma International Airport holds an individual NPDES permit that covers management of industrial stormwater, industrial wastewater and construction stormwater. The permit and fact sheet documents are available at: ecology.wa.gov. Permit number to search for is WA0024651 (Effective date 9/1/21).

Work authorized under this contract will fulfill needed field sampling and other monitoring and reporting requirements that are conducted throughout the year on a 24/7 basis.

Goal: to build strong working relationships in which consultants develop a thorough knowledge of the Airport's monitoring program, policies, programs, standards and practices, and a close working relationship with the Airport's environmental staff.

A variety of specialized environmental services are required, including those related to environmental (or stormwater) sample collection and testing, aquatic toxicology, stream hydrology, limnology, illicit discharge investigations, facility process analyses, mapping, and pollution fate and transport.
